

## Mission and Goals

### Mission of the Department of Radiologic Sciences

The School of Allied Health is dedicated to high quality undergraduate and graduate programs that prepare individuals for a variety of imaging professional roles and to be conscientious, contributing members of their profession and society.

### Undergraduate Program Mission

The mission of the Northwestern State University Radiologic Sciences Program is to provide students with advanced knowledge and skills through guided experiences and clinical practice that culminates in professional radiologic technologists becoming an integral part of the healthcare community and society.
