**United States Army**  
**Reserve Officers' Training Corps**

Completing the ROTC program requires an additional 34 hours for many degree plans. Please use this matrix as a guide when assisting Cadets with their degree plans and with CC Form 104-R. Cadets and Advisors are required to sign the 104-R each semester.

The purpose of the 104-R is to ensure academic alignment. Remaining academically aligned is paramount to commissioning on time.

For those joining the program late, freshman through sophomore years, there is an opportunity to "catch up" with MSL courses via Basic Camp. Requires PMS consent.

\* Participating in PT year-round is required; however, Cadets need to register (and pay) for only 2 semesters of PT. MSL 2030 and 3040 are offered each spring and fall and may be taken anytime up to 8 hrs (2030), 12 hrs (3040).

\*\* Military History (HIST 3240 or MSL 3240) is required for commissioning and may be taken during the junior or senior years. The History Department offers HIST 3240 each spring, and ROTC occasionally offers MSL 3240 in fall for Cadets with scheduling conflicts (as an exception, PMS consent is required).

\*\*\* Attending Advanced Camp during the summer between the junior and senior years is required.
