

## Northwestern State University – Institutional Review Board (IRB)

### Ethical Treatment of Human Subjects Training

NSU has partnered with the CITI program to offer training in the ethical treatment of human subjects. In order to complete this training, you will need to go to the CITI program website and register by using your nsula.edu email address. Once you have done so, you will be asked to add a course to your curriculum.

**Student researchers:** please choose the course from Question 1 that best applies to the type of research you intend to conduct: either **Biomedical Research** or **Social Behavioral Research**. Note: you do not need to choose an answer for each of the 8 questions (unless they apply to you).

**Faculty researchers:** please choose the course from Question 1 that best applies to the type of research you intend to conduct: either **Biomedical Research** or **Social Behavioral Research**. AND choose the corresponding course from Question 5: **Responsible Conduct of Research**. Note: you do not need to choose an answer for each of the 8 questions (unless they apply to you).

When you have completed the ethics training course, you will receive a report and certification. Please submit that report with your IRB application packet.
