Student Technology Fee Grant Funding Request Form
Northwestern State University of Louisiana

2006.003
Proposal Number

Prepared by: LTC Teresa A. Galgano Department Military Science (ROTC)

College or Unit: Science & Technology Campus: Natchitoches

Information Systems review by _____ Date _____

1. Describe target audience. (0 points)

The target audience is all military science students, freshmen through senior, actively participating in scheduled military science classes and laboratories.

2. Describe project/initiative for which you are requesting funds. (10 points)

Students will use the digital camera to capture and document their training, providing a valuable resource for junior cadets to learn from before they attend the National Advanced Leadership Camp during the summer before their senior year. The camera will be used to capture training events such as Field Training Exercises, Viking Quest, as well as the annual Ranger Challenge Competition, and award and commissioning ceremonies, the Military Ball, and other public affairs activities which can be placed in newspapers and web pages.

3. State measurable objectives that will be used to determine the impact/effectiveness of the project. (10 points)

Measurable objective to be used to determine the impact/effectiveness of the digital camera will be conducted during weekly classes. The degree of proficiency and each cadet's progress will be noted by the instructors and how well they do will be integrated into the final grades for each class/laboratory.

4. Indicate how each project objective will be evaluated. (10 points)

The impact and effectiveness of the camera will be measured through evaluation of the quality of the digital captures and the degree in which they facilitate learning of fundamental military science tactics and techniques.

5. Provide a justification for funding of the project. Estimate the number of students that will be served per academic year and in what ways. Please indicate also any unique needs of the target group. (10 points)

The purchase of a digital camera will enhance each cadet's skills in learning military science skills, and will also improve the quality of cadet briefings and presentations such as PowerPoint presentations enhanced with digital imagery from training exercises.

6. How will funding of the project advance the University and College / unit technology plan? Which NSTEP objective/s will this funding benefit? (15 points)

Funding of this project will benefit the unit technology plan directly. The digital camera is a state of the art technology and will be available for use by all the military science students in the course of their studies at Northwestern State University. The project will directly benefit each and every student by allowing them to learn how to use a digital camera and how to capture meaningful images of training events for incorporation into presentations and briefings. Many students have limited knowledge of the technological advancements available for their use. By incorporating these new technologies into their courses of study they will be better prepared and more competitive in today's marketplace upon searching for employment after graduation. Those who choose to make a commitment to the Army will be able to use the technologies readily available throughout the military to perform the work expected of them upon commissioning as an officer.

7. List those individuals who will be responsible for the implementation of the project/initiative and indicate their demonstrated abilities to accomplish the objectives of the project. (0 points)

The individuals who will be responsible for the implementation of the project are all instructors of military science classes and laboratories. LTC Galgano, MAJ Eisenmann, and SFC Lear, each of whom are fully qualified to accomplish the objectives of the project.

8. Describe any personnel (technical or otherwise) required to support the project/initiative. (5 points)

None.

9. Provide a schedule for implementation and evaluation. (5 points)

January 2006: Receipt of the digital camera. January - May 2006: Instruction to cadets on its use and incorporation of the camera in classroom and laboratory work and during all field training events and ceremonies, to include the annual military spring ball.

10. Estimate the expected life of hardware and software. Explain any anticipated equipment/software upgrades during the next five years. (0 points)

Life expectancy of this camera is estimated to be five years. No anticipated equipment/software upgrades are projected.

11. Explain in detail a plan and policy that will be in place to ensure property security/controls for any equipment received. Equipment will not be purchased until an acceptable policy is in place to ensure equipment security. (15 points)

Our supply technician will be hand-receipted for the property and will sub-hand receipt it to individual students for use with specific guidelines on protecting and securing the camera from damage and/or theft.

12. Attach a detailed budget, including: specs., description, cost, state contract number, and vendor for each item; cost of outside support personnel; and a description of how the proposal will support University/College/unit resources (i.e., cash match, funds from other sources, or reallocation of existing hardware/software or other equipment). (20 points)

Sony

SONDSCF828

Camera, Digital, 8Mp

- Features 640x480 MPEG Movie VX (standard/fine), high-speed USB 2.0, USB direct print (PICT Bridge), continuous auto focus, night shot infrared system/night framing and double-ring manual focus/zoom
- Includes InfoLithium rechargeable battery, AC adapter/in-camera charger, AV and USB cables, USB cradle, shoulder strap, flower hood, and software
- Includes Pixela Image Mixer software

Price: \$991.48

State Contract # 405577

Vendor: Corporate Express

Verbatim

VER47009

Memory Card, CompactFlash, 512MB

- Compact storage solutions for today's handheld digital and mobile computing needs.
- Memory cards are offered in three formats and are reusable.
- Manufacturer's lifetime warranty.

Price: \$68.86

State Contract # 405577

Vendor: Corporate Express

Sony

SONLCSVA30

Case, Camera Full Size, Black

- Full-size case compatible with Cyber-shot and Mavica digital cameras as well as Handycam Camcorders.

Price: \$26.24

State Contract # 405577

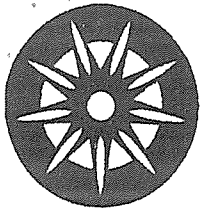

Vendor: Corporate Express

TOTAL COST: \$1,086.58

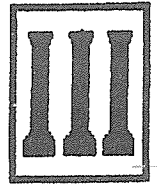

Cost of Outside Support Personnel: None

Description of How the Proposal will Support the University: The proposal will enhance the student's skills in capturing military science training and techniques. This proposal will benefit the unit technology plan directly as it will allow for hands-on experience for a large number of cadets in the Military Science ROTC department.

13. Attach a letter of support for the project signed by the requesting unit's Dean, the appropriate Vice President (for non-academic units), or the SGA President from the requesting campus (for student requests). (0 points)

COLLEGE OF SCIENCE & TECHNOLOGY
OFFICE OF THE DEAN

October 19, 2005

NSU Student Technology Committee
Natchitoches, LA 71497

SUBJECT: Letter of Support – Military Science (ROTC) Technology Request

I am pleased to support the Department of Military Science (ROTC) in their request for the Student Technology Fee Grant Funding request.

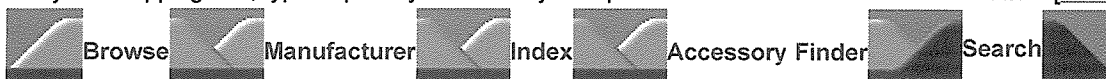

The Student Technology Grant will assure that students taking Military Science courses will be provided with the resources needed to promote optimal learning.

With approval of the technology fund, the ROTC Department will enhance educational experiences and lead students into the future, fulfilling the University Mission and University Vision.

Respectfully,

Austin L. Temple, Jr., Ph.D.
Dean, College of Science & Technology

LTC Teresa Galgano
Northwestern State University
Military Science
Natchitoches, LA 71458

Dear LTC Galgano,

It is with pleasure that the STAT (Student Technology Advisory Team) has fully funded your grant proposal for Fiscal Year 2005-06 in the amount of \$1,086.58.

Ordering of equipment listed in the grant proposal will take place during the month of January.

Please be reminded that your grant was funded through Northwestern Student Technology Fees, all equipment purchased, therefore, must be used exclusively and directly for/by Northwestern students.

You are commended for, and encouraged to continue your efforts to enrich the learning environment for students at Northwestern State University. Your time, effort, and vision in service of the students are greatly appreciated. If you have questions or need additional information please contact me by phone or via email at: long@nsula.edu.

Sincerely,

A handwritten signature in cursive script that reads "Jennifer Long".

Jennifer Long
