1. Integrate theories, knowledge, skills, and findings from nursing science, scientific disciplines, and humanities to guide the delivery of culturally sensitive care to client, families, and communities within the professional scope and standards of advanced practice of nursing.

2. Demonstrate responsibility and accountability as a practitioner of advanced nursing and consumer advocate to effect relevant change that will improve the health of citizens at a local, state and national level.

3. Utilize a scholarly inquiry process, grounded in evidence based research, to become a producer and consumer of research evidence which contributes to the development and improvement of nursing theory, nursing practice and ultimately client and healthcare outcomes.

4. Analyze the effect of historical, cultural, economic, ethical, legal and political influence on nursing and health care delivery.

5. Manage resources within a health care delivery system through collaboration with other health care providers, community, and clients.

6. Contribute to the continued professional development and improvement of self, client, community and healthcare delivery systems.

* Each learning outcome has a specific assessment method, expected outcomes and actual outcomes which are calculated each year.
