- MSCI 3240 – Military History of the U.S. (3-3-0).

**Action:** The question of duplication of course offering with HIST 3240 was posed. CPT Welch responded for the Military Science Department, informing the council that the NSU ROTC program allows students to complete HIST 3240 to meet requirements but have found that many other institutions will not accept toward

their programs so the aim is to create a Military Science offering that will satisfy that need. Following discussion, Dr. Horton recommended the department work with the Criminal Justice, History, and Social Sciences Department to cross list the courses and to present a joint request to the council to do so at a future date. Recommendation was accepted and the proposed new course approved without opposition.

Add: PSYC 2050 and PSYC 2450 or 4450 (6 hours)

**Action:** Approved without opposition.

Other Business:

The Military Science Department requested the council consider amending the agenda to consider a proposal to change the title of the Military Science minor to Leadership. Council unanimously approved the request. Dr. Bill Dickens questioned the decision to change the title to Leadership instead of designating it as Military Leadership since there are numerous programs currently offered using leadership in the title. Following discussion, the military science representatives in attendance indicated the department would have no objection to making that change. Dr. Dickens moved, and Dr. Pamela Simmons seconded his motion, to amend the proposal to rename the Military Science minor to Military Leadership. Motion approved and proposal approved, as amended, without opposition.
