WHAT IS A CLUB SPORT?

A Club Sport is a student organization designed to serve student interests in sports at the Non-NCAA level. Each club sport is student initiated and administered. Clubs can compete with other clubs, organizations, colleges, and universities.

Club sports are a great opportunity to get involved and become a part of the student community here on Northwestern's campus. Joining a club gives students a balance of having collegiate sport experience without the intensity of a varsity athletic team. Club sports are a great opportunity to continue an athletic career or learn new skills while also building friendships.
