

# CREATIVE PROBLEM-SOLVING!

## 6th Annual Engineering Technology SYMPOSIUM

Monday, October 23, 2023

8 AM-12 Noon | Student Union Ballroom  
NSU CAMPUS | NATCHITOCHE, LA

The symposium is conducted in conjunction with  
the National Manufacturing Month.

Regional manufacturers will participate to offer  
information about their companies and relevant  
STEM career opportunities available.

Student Registration  
[www.nsu.la/ETsymp](http://www.nsu.la/ETsymp)

**Mr. Kamal Deep**, Plant Quality and Lean Manufacturing Manager at Alliance Compressors, **Dr. Jun-Ing Ker**, Program Chair of Engineering and Technology Management, Louisiana Tech University, and **Mr. Mohammad Gharaibeh**, Internal Auditor at Cleco Corporation and the founder of AnalytiXplore (AE), will be the featured speakers, along with local industry representatives, graduates of the program and NSU administrators.

Industry Rep Registration

## NORTHWESTERN STATE

The ET Symposium was established in October 2017. It is a platform to bring together academia, industry, and workforce development constituents to discuss common issues related to the future needs of our nation and how these issues will impact industry and business. The symposium is intended to bring together academia, industry, and workforce development constituents to discuss common issues related to future job needs and how those issues will impact industry and business.

For more information about the ET department, you may contact Dr. Shahriar Hossain,  
Asst. Professor and Interim Head Dept. of Engineering Technology, [hossains@nsula.edu](mailto:hossains@nsula.edu)
